

MESSAGE FROM THE GENERAL CHAIRS

SCSE 2021 is a forum for the exchange of ideas, techniques, and state-of-the-art applications in the fields of computer science & engineering among scientists, engineers, and practitioners. For SCSE 2021, we will provide a friendly environment where researchers can discuss current and future trends in research areas such as Applied Artificial Intelligence, Image Processing and Visualization, Embedded Systems and VLSI Design, High Performance Computing, Internet of Things, Network and Service Management and other interesting topics.

SCSE 2021, hosted by Faculty of Computer Science & Engineering, is the second symposium in conjunction with the 17th Science and Technology Conference of Ho Chi Minh City University of Technology (HCMUT), Vietnam from October 22-23, 2021. In SCSE 2021, we selected 12 papers to appear in a special issue of REV Journal on Electronics and Communications (ISSN: 1859-378X), published by The Radio and Electronics Association of Vietnam. This year, we also invited 2 keynote speakers from Australia and Japan, and organized an industrial workshop on “Digital Transformation-- Practical Views”.

We would like to thank the SCSE 2021 organizing committee members, the technical program committee members for their tremendous contributions. Finally, we would like to acknowledge the keynote speakers, the industrial workshop speakers, the authors, and all attendees for their great contribution and participation.
